

Meeting
Mr. Lambert's Office
Dec. 8, 1970

Present Palmer DeLong
Ed Clyde
Lynn Ludlow
Hubert C. Lambert
Dallin Jensen
Harold Donaldson

Question on irrigable acreage of the Indian Service in Group 5 lands
in the Water Rights books of the Ute Indian Service.

Acreages - based on a land classification and evaluation performed
by the Indian Services. Tribe has accepted the classification as
made by the Indian Services.

U. S. Bur. of Rec. - has not made any surveys of Indian lands. They
are part of the same U. S. Dept. and were told not to do work that
had been done by the U. S. I. S.

Indian Service has reduced some lands from Group 5 lands but classifi-
cation is much more liberal than U. S. B. R. land classification.
